My Dear Maggie;-

I know you expected another letter from me before now, but I was out all day yesterday and the day before looking at land, and did not get in until after dark. I have been down near Waterford 2 or 3 days looking at farms. There is some good land there that is cheap enough, and near a good school, which has 3 teachers.

I want to look at 3 or 4 more farms before I decide where to buy.

I think I will go down to Aldie tomorrow to look at a big farm which I am told is a good one.

I will look at another one Tuesday between Hamilton and Peonion that is said to be a dandy. This farm is right close to Hamilton, a town of about 400 people where there is a no. 1 school, and it is also near Peonion, where there is the best school in Loudoun County.

I came back to Mr. Grays last night. got here after dark and I am staying over Sunday here. I don't know how I will ever repay them for their kindness and hospitality.

I think I will be able to report to you by Tuesday evening something definite, but I will probably have to stay here a day or two after that to close up what ever trade I make. I want to get home one day this week, for I want to see you and the babies awful bad. Tell Mr. Cole that he must try to stay with you until I get back. Kiss all the babies for me and tell them Papa will be back just as soon as he possibly can.

Affectionately,  
Your Husband
